Product sheet summary

B.1- Medical Supplies

MESI

<https://medicalesi.com/>

Medical ESI Ltd. is a newly formed subdivision of Estimating Services Inc., a registered minority owned business based in Canada. Medical ESI was established to properly respond to the world **COVID-19 crisis** and quickly react to the need for quality, certified medical supplies with a reliable supply chain system.

The Company extensively researched the manufacturing process of our partners and the certification standards of the products and have implemented a rigid QA/QC process for ensuring the highest quality products reach our clients. Our global logistic system allows us to import products to countries around the world with the import licenses, clearance and local delivery our customers expect.

Medical ESI is 100% committed to providing safe and accurate products certified as CE and/or FDA. Our supplier meets or exceeds these requirements.
